

Dog Med Laser Affiliate Program

At Dog Med Laser we care.

We care about our furry friends; we care about their comfort when they get older or after surgery and when they play rough and bump hard into an obstacle. We do not like to see them in pain.

We care about quality and manufacture our Dog Med Laser in Canada. It is a real Laser Diodes device, in the 635nm range for pain relief, acceleration of wound closure and reduction of inflammation.

If you believe in a more natural approach to animal medicine, becoming a Dog Med Laser affiliate is for you.

More and more pet parents, when they can, opt for home care and favor non medication options. Dog Med Laser is a home use certified PhotoBioModulation Therapy device trusted by Veterinarians and pet parents all over North America.

We offer generous fees and performance bonuses. We work with you and will make available the promotion tools you need.

- \$80 per order
- 30 days cookies
- Monitor your performance and earnings with our affiliate dashboard
- Receive payments via PayPal
- Affiliate Program restricted to North America.
- You must be 18 years old to join.

[Sign up to our affiliate program](#)

We will come back to you quickly after you complete the registration form.

We evaluate each and every application and are the sole and exclusive decision-makers on Affiliate acceptance.
