## WHAT IS AFFILIATE MARKETING?

As an affiliate you get a set commission for every sale that is made through your site. All you have to do is place a text link or banner on your site and when a customer clicks through and makes a purchase, you receive a commission on that sale. We offer free tracking tools, notification of specials/sales, free coupons and more for our affiliates.

## HOW DO I GET PAID?

We take care of the tracking portion through our third party online networks, AvantLink and PepperJam Ascend. These networks track sales, earnings and commissions and gives affiliates access to our banners, text links and data feeds.

Why wait? Join now and start earning money right away through a partnership with us. The sign up process is very quick and easy and can be completed here:
