OBF24 IS THE BIGGEST MARKETPLACE FOR ORGANIC BABY FOOD IN EUROPE!

Organic Baby Food 24 is the biggest marketplace for organic baby food in Europe. We are the most affordable, trustworthy and reliable online vendor for Holle, HiPP, Lebenswert bio, and Loulouka products. Organicbabyfood24.de only offers products free of pesticides, chemical fertilizers and GMOs. All brands are frequently controlled according to German health standards. Our formulas are therefore the best for babies between 0 and 12+ months.

Unlike formulas from e.g. the USA or Canada, German organic formulas are produced without using artificial flavors, pesticides or any chemical preservatives. All the ingredients are safe and natural, nutritious and pure. They are carefully selected and also suitable for hypersensitive babies. For example, the milk used in production provides extraordinary quality because it is derived from healthy cows and goats.

Additionally, we now offer baby care products. Our 100% certified care products are designed to work with all types of baby skin from normal to hypersensitive.

WE OFFER OUR CUSTOMERS:

- worldwide & reliable shipping
- safe shopping guarantee
