# Love Treehouse? Spread the Word and Earn Money with the Treehouse Affiliate Program!

Mary McPherson February 5, 2016 - 1 min read

Treehouse News

*Treehouse brings affordable technology education to people everywhere in order to help them achieve their dreams and change the world.*

Nothing matters more to Treehouse than our mission. We are in the business of teaching students valuable skills so they have the power to change their lives. How cool is that?

We've been fortunate enough to have a hand in [helping thousands of students](#) learn to code; to give them the ability to launch a new career, or improve the trajectory of their current one. By putting students first and focusing on creating the highest quality educational content possible, Treehouse has been able to grow by word of mouth from our awesome students.

Now we have a new opportunity! If you believe in Treehouse you can contribute to our mission, help us reach new people and get paid through the Treehouse affiliate program. Here's how it works:

- The more students your refer, the more you get paid.
- You get paid when students convert to a paid account.
- Use our free banners, tools and support to succeed.

Great move. I've been wondering if/when Treehouse would implement an affiliate program.

How will pausing subscription affect affiliate status? (Or will it) That is, I'm in the habit of putting my account on hold every now and then when work/life requires more of my attention in a given month...

Best, Chris.

I am a current student and would like to join the affiliate program, however it's not giving me the option... it's saying free trial instead of my avatar and info on the [blog.teamtreehouse.com](#) subdirectory. I have signed up through Code Oregon 2.0, So I shouldn't have this issue. Again, I would be interested in the affiliate program.
