2

Find your referral link in "Referral Program" section, copy and share it with potential partners.

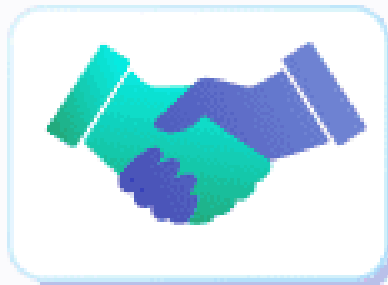

NOTE!

New advertisers should follow YOUR referral link. So that the system processed new partners' data correctly and assigned them under your account.

3

Right after the evadav registration you can see your referral partners in your account real-time stats and publishers.

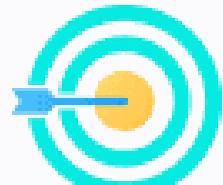

4

As soon as invited advertisers buy any ads formats in total \$500 and more, you'll get \$50 for EACH of them and 5% for all publishers revenue lifetime.

NOTE!

By the way, not only you get \$50, but every new advertiser (brought by you) will get \$50 as well after spending \$500.

In order to withdraw earned commission, transfer it to your publisher or advertiser balance. Up to you.

VOLUUM

EVADAV is one of my top sources for push traffic and recently I also started testing their pops as well! On top of having a great platform for buying traffic, you can also easily monetize your own traffic using their push widgets. Highly recommended!
