## Got questions? Well, we've got answers.

#### What is the Affiliate Program?

The Affiliate Program for HostGator is a way to earn money for any qualified purchase from your affiliate link that is posted on your website, social media, blog, etc. All Affiliates will start at a base commission of \$65. CPA increases are based on performance, conversion rate, customer renewal rate, and your AOV.

#### How do you track sales?

You will need to use the dedicated affiliate link that you generate from your Impact dashboard in order to be able to track and earn credit for your customers' hosting purchases. If you have questions about this, feel free to contact us directly at [affiliates@hostgator.com](mailto:affiliates@hostgator.com).

#### What are the affiliate program's commission payout terms?

Our payout turnaround for qualified sales is 2 months + 10 days after the month the sale occurred in. This is to account for HostGator's amazing [30-day money-back guarantee](#) which makes our hosting easy to try, at no risk!
